# Define Your Own
Work Place Environment with
True Mobile Collaboration

Zulu UC

Zulu UC available for both Desktop and Mobile
Desktop: Windows, Mac OSX & Linux - Mobile: iOS & Android

Communication Designed for Today's Productive and Mobile Work Force

Zulu UC is the ultimate communication and collaboration tool, enhancing work place productivity for on-site and remote workers.

With Zulu UC, you define your work place environment, enabling workstations, laptops and mobile devices with unified communication features, keeping you closely connected with all your colleague, where ever they are located.

Studies have shown that a large percentage of work place productivity happens when staff is out of the office, away from their desk. Zulu UC is there to make sure that you capture your creativity when it happens, wherever you are located.

Be more productive with Zulu UC!

Zulu UC Features

TAKE YOUR EXTENSION WITH YOU
Make and receive phone calls using your extension from the Zulu Desktop client or Mobile app.

TEAM CHAT AND FILE SHARING
Enhance team collaboration with direct messaging and chat rooms. File sharing within chat also improves productivity.

CLICK-TO-CALL
Make outbound calls from web browsers and all your popular desktop applications simply by clicking on the phone number.
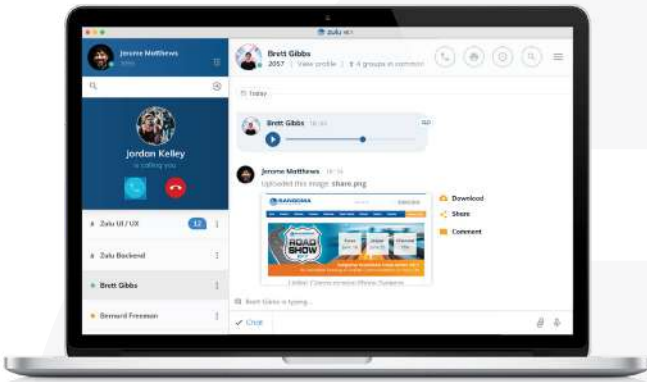

SCREEN-POP SHOWS WHO'S CALLING
Screen-pop automatically displays account details as soon as the call comes in, reducing call times.
