PBXact Cloud is Sangoma's Cloud-based Unified Communications (UC) Solution for Small and Medium-sized Businesses (SMBs).

PBXact Cloud is more than a hosted IP-PBX; it is a full-featured UC cloud solution, affordably priced, for as low as £12 per user. In addition to receiving reliable, high-quality VoIP phone service for all your employees, you also have access to the following features:

- » Mobility
- » Voicemail to Email
- » Chat
- » IVRs
- » Integration with CRM systems including Salesforce
- » Call Queues
- » Presence
- » Auto-attendant
- » On-demand Recording
- » And more!

All of the features are included, with no additional licensing fees required, making PBXact Cloud the best value for your complete hosted UC solution.

PBXact Cloud is based on Sangoma's award-winning PBXact business phone system. Recognized as a powerful IP communications system, PBXact is built for SMBs looking for enterprise-class features at an affordable price. The same features and flexibility of the premise (on-site) based PBXact phone system are now available in PBXact Cloud and are easily accessible to businesses with as few as five users.

With PBXact Cloud you can have access to a business-class phone system while completely eliminating costly CapEx. Now you can add Sangoma IP-phones to your monthly bill as opposed to exhausting capital up front with hardware. PBXact Cloud makes it easy to get started with no upfront costs, hassle-free installation and no ongoing maintenance.

PBXact Cloud is more than a hosted IP PBX, it's a full-featured UC cloud solution.
